

THE COMPUTER REIMAGINED

LTME uses the same powerful but inexpensive processor that powers tablets. Its unique design is eye catching, approachable, and delightful. Plug it into an existing monitor or television and you have a complete computer, capable of browsing the web, typing documents, editing music, and so much more. We have brought the cost down to a fraction of the cost of a conventional PC, and it is ready for you to own.

THE POWER OF A PC THE EASE OF A SMARTPHONE

Explore

LTME is your guide.

Preloaded with a full encyclopedia, recipes, health information, and hundreds of other programs that work without an internet connection. Endless also comes with a browser for when you have internet access.

Work

LTME is your business partner.

Build, manage and grow a business with Endless. Use apps to help you create budgets, spreadsheets, presentations and even professional resumes.

Create

LTME is your canvas.

A full-featured photo editor, music mixing apps and apps that will teach you how to code. Maybe you'll help us create a new app?

Live

LTME is your instruction manual for life.

Live your best life with apps on health and wellness to farming and local culture. Explore ways to become a better you.

Play

LTME is your personal entertainment center.

Facebook is built into the desktop and YouTube is just a click away. We've added hours of pre-loaded music and short videos for you to enjoy. There's something for everyone, from racing games to puzzles, math games and more.

Learn

LTME is your personal tutor.

Instantly access educational content like video lectures and an encyclopedia, even without an internet connection.

Connect

LTME is your communication hub.

Do you like WhatsApp? Facebook? Skype? LTME will help you stay in touch with your friends and family when you are online.

App Center

Find even more apps in our app center. It's filled with apps for the whole family!
